**RESEARCH METHODS**

**GENERAL DVDs**

D2050  
**How Results Can Be Misleading: Problems with Reliability and Validity**  
This program examines potential problems that can decrease a study’s real-world applicability and accuracy of measurement. It defines reliability and validity in research and presents examples of inter-rater reliability, test-retest reliability, and internal consistency and offers suggestions for improving the quality of one’s research. It also discusses construct validity, external validity, and internal validity.
